

Expression of Interest:

Contribute a Case Study to Chemical Atlas

Thank you for your interest in the Chemical Atlas project! If you are interested in contributing a case study to the Atlas, send the following information to Andrew Barry a.barry@ucl.ac.uk with the subject header: "Chemical Atlas – Case Study Contribution". We are reviewing submissions on a rolling basis.

1. Title of the case
2. Knowledge area (select all that apply)
 - Scientific study
 - Participatory research
 - Citizen science
 - Creative project
 - Political campaign
 - Environmental conflict
 - Environmental history
 - Speculative future
3. Scale (select all that apply)
 - Human bodies
 - Non-human bodies
 - Local (neighbourhood, habitat)
 - Regional, national, or international
 - Planetary
 - Laboratory
4. Location of case study (if applicable)
5. Narrative of the case (500 words max.)

Describe the problem or situation: Who? What? Where? When? How? Why? So what? Ensure that the language you use would be comprehensible to a non-specialist (e.g., A Level student, teacher, NGO worker, undergraduate, and other personas). Set the scene in an engaging way.
6. Analysis of the case (500 words max.)

This could be primarily scientific, quantitative, ethnographic, visual, or interpretive analysis of the case, site or problem. Include citations to published sources (refereed journal articles, creative works, public databases).
7. Attach your maps and images
8. Links to any multimedia (if relevant)
